Additional Full Year 2018 Highlights

- Premier Payments LLC and Newtek Merchant Solutions, two of the Company's wholly owned payment processing portfolio companies, closed a \$35 million term loan and a \$15 million revolving line of credit arranged by Webster Bank, which reduced its interest spread over LIBOR by 350 basis points compared to the interest rate on the term loan with their previous lender.

- The Company entered into an investment joint venture (the “JV”) with Conventional Lending TCP Holdings LLC, a wholly-owned affiliate of BlackRock TCP Capital Corp. (“BlackRock TCP”), to equally invest up to \$100 million in the funding of non-conforming conventional commercial and industrial (“C&I”) loans.
- The JV is working towards closing a \$100 million senior-secured revolving credit facility with an investment bank, with a \$100 million accordion feature, allowing the JV to increase the borrowing available under the JV’s credit facility to \$200 million, which will be used to finance and securitize non-conforming conventional loans.

SBA Loan Highlights

- Newtek Small Business Finance, LLC (“NSBF”) funded \$469.2 million of SBA 7(a) loans during the year ended December 31, 2018; an increase of 21.6% compared to \$385.9 million of SBA 7(a) loans funded for the year ended December 31, 2017.
- NSBF forecasts full year 2019 SBA 7(a) loan fundings of between \$580 million and \$620 million, which would represent a 27.9% increase, at the midpoint of the range, over SBA 7(a) loan fundings for the year ended December 31, 2018.
- During the year ended December 31, 2018, Newtek Business Credit (“NBC”) and Newtek Business Lending (“NBL”), wholly owned portfolio companies, funded \$36.3 million of SBA 504 and non-conforming conventional loans, and NBSC funded a \$5.7 million non-conforming conventional loan for a total of \$42.0 million of SBA 504 loans and conventional loans.

2018 Dividend Payments & 2019 Dividend Payments and Forecast

- The Company paid cash dividends totaling \$1.80 per share during 2018, an increase of 9.8% over 2017 cash dividends of \$1.64 per share.
- The Company forecasts paying an annual cash dividend of \$1.84² per share in 2019, a 2.2% increase over the 2018 cash dividend of \$1.80 per share.
- February 15, 2019: Newtek’s Board of Directors declared a first quarter 2019 cash dividend of \$0.40 per share, payable on March 29, 2019 to shareholders of record as of March 15, 2019.

Barry Sloane, Chairman, President and Chief Executive Officer said, “We are extremely pleased to report strong full year 2018 financial results, with growth across our key financial metrics. In 2018, we realized a 11.1% year-over-year improvement in our net investment loss, and a 9.6% increase in ANII per share. Of note, our ANII of \$1.94 per share for the year ended December 31, 2018 exceeded our analysts’ estimates³ by \$0.02 per share. We continued to grow our SBA 7(a) loan platform, funding \$469.2 million in SBA 7(a) loans in 2018, which represents a 21.6% increase over 2017. We aim to continue this growth and forecast funding between \$580 million and \$620 million in SBA 7(a) loans in 2019, which would represent 27.9% growth over 2018 at the midpoint of the range.”

Mr. Sloane continued, “Throughout 2018, our business model continued to support our growth, demonstrating that our business model is supported by multiple sources of revenue. As previously reported and discussed, during the third and fourth quarters of 2018, we experienced pressure on the pricing of the sale of guaranteed portions of our SBA 7(a) loans with weighted average net pricing of 109.28 and 109.97, respectively. However, even with this pricing pressure, we were still able to grow our earnings and dividend in 2018, testament to the resilience and diversified nature of our business model. Newtek’s business model enabled us to offset our impact to earnings through our growth in loan originations as well as continued growth in dividends generated by our portfolio companies. We ended 2018 with a weighted average net price of 110.52. We are pleased to report that during the first quarter of 2019, we have experienced improvement in the pricing of the sale of the guaranteed portions of our SBA 7(a) loans.”

Mr. Sloane concluded, “In 2018 we made material strides towards the continued growth of our non-conforming conventional loan program. Specifically, in November 2018, we entered into an investment JV with Conventional Lending TCP Holdings, LLC, a wholly owned affiliate of Blackrock TCP. In addition to Newtek and BlackRock TCP’s commitment to each contribute up to \$100 million to the JV, we expect the investment JV to close \$100 million in warehouse financing with a \$100 million accordion feature with an investment bank allowing us to further leverage and expand our non-conforming conventional loan platform. We hope that the investment JV will be somewhat additive to our 2019 performance, but at this point we have not included any potential benefit of the investment JV in our 2019 dividend forecast of \$1.84 per share.”

1Use of Non-GAAP Financial Measures - Newtek Business Services Corp. and Subsidiaries

In evaluating its business, Newtek considers and uses ANII as a measure of its operating performance. ANII includes short-term capital gains from the sale of the guaranteed portions of SBA 7(a) loans and conventional loans, and beginning in 2016, capital gain distributions from controlled portfolio companies, which are reoccurring events. The Company defines ANII as Net investment income (loss) plus Net realized gains recognized from the sale of guaranteed portions of SBA 7(a) loan investments, less realized losses on non-affiliate investments, plus or minus loss on lease adjustment, plus the net realized gains on controlled investments, plus or minus the change in fair value of contingent consideration liabilities, plus loss on extinguishment of debt.

The term ANII is not defined under U.S. generally accepted accounting principles, or U.S. GAAP, and is not a measure of operating income, operating performance or liquidity presented in accordance with U.S. GAAP. ANII has limitations as an analytical tool and, when assessing the Company's operating performance, investors should not consider ANII in isolation, or as a substitute for net investment income, or other consolidated income statement data prepared in accordance with U.S. GAAP. Among other things, ANII does not reflect the Company's actual cash expenditures. Other companies may calculate similar measures differently than Newtek, limiting their usefulness as comparative tools. The Company compensates for these limitations by relying primarily on its GAAP results supplemented by ANII.

2Note Regarding Dividend Payments

Amount and timing of dividends, if any, remain subject to the discretion of the Company's Board of Directors. The Company's Board of Directors expects to maintain a dividend policy with the objective of making quarterly distributions in an amount that approximates 90 - 100% of the Company's annual taxable income. The determination of the tax attributes of the Company's distributions is made annually as of the end of the Company's fiscal year based upon its taxable income for the full year and distributions paid for the full year.
