(1) Newtek values each unguaranteed portion of SBA 7(a) performing loans ("Loan") using a discounted cash flow analysis which projects future cash flows and incorporates projections for Loan pre-payments and Loan defaults using historical portfolio data. The data predicts future prepayment and default probability on curves which are based on Loan age. The

81

Table of Contents

recovery assumption for each Loan is specific to the discounted valuation of the collateral supporting that Loan. Each Loan's cash flow is discounted at a rate which approximates a market yield. The Loans were originated under the SBA 7(a) program and conform to the underwriting guidelines in effect at their time of origination. Newtek has been awarded PLP status from the SBA. The portions of these Loans are not guaranteed by the SBA. Individual loan participations can be sold to institutions which have been granted an SBA 750 license. Loans can also be sold as a pool of loans in a security form to qualified investors. (2) Prime Rate is equal to 4.25% as of September 30, 2017.

(3) Newtek values non-performing SBA 7(a) loans using a discounted cash flow analysis of the underlying collateral which supports the loan. Net recovery of collateral, (fair value less cost to liquidate) is applied to the discounted cash flow analysis based upon a time to liquidate estimate. Modified loans are valued based upon current payment streams and are re-amortized at the end of the modification period.

(4) Newtek values guaranteed performing SBA 7(a) loans using the secondary SBA 7(a) market as a reference point. Newtek routinely sells performing SBA 7(a) loans into this secondary market. Guaranteed portions of SBA 7(a) loans partially funded as of the valuation date are valued using level two inputs as disclosed in Note 6.

(5) Controlled Investments are disclosed above as equity investments (except as otherwise noted) in those companies that are "Controlled Investments" of the Company as defined in the Investment Company Act of 1940. A company is deemed to be a "Controlled Investment" of Newtek Business Services Corp. if Newtek Business Services Corp. or its subsidiaries owns more than 25% of the voting securities of such company.

(6) 50% owned by Wilshire Holdings I, Inc. (a subsidiary of Newtek Business Services Corp.), 50% owned by non-affiliate. The term loan is past its original maturity date and currently in default. As such, the fair value of the investment is zero.

(7) 96.11% owned by Wilshire Partners, LLC (a subsidiary of Newtek Business Services Corp.), 3.89% owned by Newtek Business Services Corp.

(8) 18.35% owned by Wilshire New York Partners IV, LLC (a subsidiary of Newtek Business Services Corp.), 31.8% owned by Wilshire New York Partners V, LLC (a subsidiary of Newtek Business Services Corp.) and 49.85% owned by Wilshire Holdings 1, Inc. (a subsidiary of Newtek Business Services Corp.), 30% owned by Wilshire New York Partners V, LLC (a subsidiary of Newtek Business Services Corp.), 17.8% owned by Wilshire New York Partners IV, LLC (a subsidiary of Newtek Business Services Corp.), and 2.2% owned by Wilshire New York Advisers II, LLC (a subsidiary of Newtek Business Services Corp.).

(16) 36.2% owned by Wilshire New York Partners V, LLC and 13.8% owned by Wilshire New York Partners IV, LLC (both subsidiaries of Newtek Business Services Corp.), 50% owned by non-affiliate.

(17) 100% owned by Newtek Business Services Holdco 2, Inc. (a subsidiary of Newtek Business Services Corp.). During the three months ended September 30, 2017, a portion of IPM's business was spun off into a new wholly-owned controlled portfolio company, SIDCO. As a result, the underlying IPM business has not changed. The Company determined the cost basis of its investments in IPM and SIDCO to be \$8,800,000 and \$2,320,000, respectively. Refer to Note 3.

(18) Zero cost basis is reflected as the portfolio company was organized by the Company and incurred internal legal costs to organize the entity and immaterial external filing fees which were expensed when incurred.

(19) All of the Company's investments are in entities which are organized under the Laws of the United States and have a principal place of business in the United States.

(20) Under the Investment Company Act of 1940, as amended, the Company may not acquire any non-qualifying assets unless, at the time the acquisition is made, qualifying assets represent at least 70% of the Company's total assets. At September 30, 2017, 4.9% of total assets are non-qualifying assets.

^ Denotes investment that has been pledged as collateral under the Securitization Trusts.

* Denotes non-income producing security.

(1) Newtek values each unguaranteed portion of SBA 7(a) performing loans ("Loan") using a discounted cash flow analysis which projects future cash flows and incorporates projections for Loan pre-payments and Loan defaults using historical portfolio data. The data predicts future prepayment and default probability on curves which are based on Loan age. The recovery assumption for each Loan is specific to the discounted valuation of the collateral supporting that Loan. Each Loan's cash flow is discounted at a rate which approximates a market yield. The Loans were originated under the SBA 7(a) program and conform to the underwriting guidelines in effect at their time of origination. Newtek has been awarded Preferred Lender Program ("PLP") status from the SBA. The portions of these Loans are not guaranteed by the SBA. Individual loan participations can be sold to institutions which have been granted an SBA 750 license. Loans can also be sold as a pool of loans in a security form to qualified investors.

(2) Prime Rate is equal to 3.50% as of December 31, 2016.

(3) Newtek values non-performing SBA 7(a) loans using a discounted cash flow analysis of the underlying collateral which supports the loan. Net recovery of collateral, (fair value less cost to liquidate) is applied to the discounted cash flow analysis based upon a time to liquidate estimate. Modified loans are valued based upon current payment streams and are re-amortized at the end of the modification period.

(4) Newtek values guaranteed performing SBA 7(a) loans using the secondary SBA 7(a) market as a reference point. Newtek routinely sells performing SBA 7(a) loans into this secondary market. Guaranteed portions of SBA 7(a) loans partially funded as of the valuation date are valued using level two inputs as disclosed in Note 6.

(5) Controlled Investments are disclosed above as equity investments (except as otherwise noted) in those companies that are "Controlled Investments" of the Company as defined in the Investment Company Act of 1940. A company is deemed to be a "Controlled Investment" of Newtek Business Services Corp. if Newtek Business Services Corp. or its subsidiaries owns more than 25% of the voting securities of such company.

(6) 50% owned by Wilshire Holdings I, Inc. (a subsidiary of Newtek Business Services Corp.), 50% owned by non-affiliate. The term loan is past its original maturity date and currently in default. As such, the fair value of the investment is zero.

(7) 96.11% owned by Wilshire Partners, LLC (a subsidiary of Newtek Business Services Corp.), 3.89% owned by Newtek Business Services Corp.

(8) 18.35% owned by Wilshire New York Partners IV, LLC (a subsidiary of Newtek Business Services Corp.), 31.8% owned by Wilshire New York Partners V, LLC (a subsidiary of Newtek Business Services Corp.) and 49.85% owned by Wilshire Holdings I, Inc. (a subsidiary of Newtek Business Services Corp.).

(15) 50% owned by Exponential Business Development Co., Inc. (a subsidiary of Newtek Business Services Corp.), 30% owned by Wilshire New York Partners V, LLC (a subsidiary of Newtek Business Services Corp.), 17.8% owned by Wilshire New York Partners IV, LLC (a subsidiary of Newtek Business Services Corp.), and 2.2% owned by Wilshire New York Advisers II, LLC (a subsidiary of Newtek Business Services Corp.).

(16) Zero cost basis is reflected as the portfolio company was organized by the Company and incurred internal legal costs to organize the entity and immaterial external filing fees which were expensed when incurred.

(17) All of the Company's investments are in entities which are organized under the Laws of the United States and have a principal place of business in the United States.

(18) Under the Investment Company Act of 1940, as amended, the Company may not acquire any non-qualifying assets unless, at the time the acquisition is made, qualifying assets represent at least 70% of the Company's total assets. At December 31, 2016, 5.5% of total assets are non-qualifying assets. As of December 31, 2016, the federal tax cost of investments was \$263,179,000 resulting in estimated gross unrealized gains and losses of \$99,380,000 and \$17,335,000, respectively.

In accordance with ASC Topic 820, the Company has categorized its financial instruments carried at fair value, based on the priority of the valuation technique, into a three-level fair value hierarchy. Fair value is a market-based measure considered from the perspective of the market participant who holds the financial instrument rather than an entity-specific measure. Therefore, when market assumptions are not readily available, the Company's own assumptions are set to reflect those that management believes market participants would use in pricing the financial instrument at the measurement date.

The availability of observable inputs can vary depending on the financial instrument and is affected by a wide variety of factors, including, for example, the type of product, whether the product is new, whether the product is traded on an active exchange or in the secondary market and the current market conditions. To the extent that the valuation is based on models or inputs that are less observable or unobservable in the market the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised by the Company in determining fair value is greatest for financial instruments classified as Level 3.

Any changes to the valuation methodology are reviewed by management and the Board to confirm that the changes are appropriate. As markets change, new products develop and the pricing for products becomes more or less transparent, the Company will continue to refine its valuation methodologies. See further description of fair value methodology in Note 6.

Use of Estimates

The preparation of consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenue and expense during the reporting period. The level of uncertainty in estimates and assumptions increases with the length of time until the underlying transactions are complete. Actual results could differ from those estimates.

Consolidation

As provided under Regulation S-X and ASC Topic 946, the Company will generally not consolidate its investment in a company other than an investment company subsidiary or a controlled operating company whose business consists of providing services to the Company.

Assets related to transactions that do not meet ASC Topic 860 — Transfers and Servicing ("ASC Topic 860") requirements for accounting sale treatment are reflected in the Company's condensed consolidated statements of assets and liabilities as investments. Those assets are owned by the securitization trusts, and are included in the Company's condensed consolidated financial statements. The creditors of the special purpose entities have received security interests in such assets and such assets are not intended to be available to the creditors of the Company.

Distributions

Dividends and distributions to the Company's common stockholders are recorded on the declaration date. The timing and amount to be paid out as a dividend or distribution is determined by the Company's Board each quarter and is generally based upon the taxable earnings estimated by management.

Cash and Cash Equivalents

The Company considers all highly liquid investments with maturities of three months or less when purchased to be cash equivalents. Invested cash is held almost exclusively at financial institutions of high credit quality. The Company invests cash not held in interest free checking accounts or bank money market accounts mainly in U.S. Treasury only money market instruments. As of September 30, 2017, cash deposits in excess of insured amounts totaled \$11,068,000. The Company has not experienced any losses with respect to cash balances in excess of insured amounts and management does not believe there was a significant concentration of risk with respect to cash balances as of September 30, 2017.

Restricted Cash

Restricted cash includes amounts due on SBA loan-related remittances to third parties, cash reserves established as part of a voluntary agreement with the SBA, and cash reserves associated with securitization transactions. As of September 30, 2017, total restricted cash was \$26,602,000.

Broker Receivable

Broker receivable represents amounts due from third parties for loans which have been traded at period end but have not yet settled.

Income Taxes

Deferred tax assets and liabilities are computed based upon the differences between the financial statement and income tax basis of assets and liabilities using the enacted tax rates in effect for the year in which those temporary differences are expected to be realized or settled. If available evidence suggests that it is more likely than not that some portion or all of the deferred tax assets will not be realized, a valuation allowance is required to reduce the deferred tax assets to the amount that is more likely than not to be realized.

The Company's U.S. federal and state income tax returns prior to fiscal year 2014 are generally closed, and management continually evaluates expiring statutes of limitations, audits, proposed settlements, changes in tax law and new authoritative rulings.

The Company has elected to be treated as a RIC under the Code beginning with the 2015 tax year and operates in a manner so as to continue to qualify for the tax treatment applicable to RICs. The RIC tax return includes Newtek Business Services Corp. and NSBF, a single member LLC disregarded for tax purposes. None of the Company's other subsidiaries are included in the RIC tax return. The Company will evaluate and record any deferred tax assets and liabilities of the subsidiaries that are not included in the RIC tax return. In order to maintain its RIC tax treatment, among other things, the Company is required to meet certain source of income and asset diversification requirements and timely distribute to its stockholders at least 90% of investment company taxable income, as defined by the Code, for each tax year. The Company intends to make the requisite distributions to its stockholders, which will generally relieve the Company from U.S. federal income taxes with respect to any income that is distributed to its stockholders as dividends.

Depending on the level of taxable income earned in a tax year, the Company may choose to retain taxable income in excess of current year dividend distributions, and would distribute such taxable income in the next tax year. The Company would then pay a 4% excise tax on such income, as required. To the extent that the Company determines that its estimated current year annual taxable income, determined on a calendar year basis, could exceed estimated current calendar year dividend distributions, the Company accrues excise tax, if any, on estimated excess taxable income as taxable income is earned. For the three and nine months ended September 30, 2017 and 2016, no U.S. federal excise taxes were due.

The Company's Taxable Subsidiaries accrue income taxes payable based on the applicable corporate rates on the net unrealized appreciation generated by the controlled investments held by the Taxable Subsidiaries. Such deferred tax liabilities amounted to \$5,240,000 and \$5,983,000 at September 30, 2017 and December 31, 2016, respectively, and are recorded as a deferred tax

liabilities on the condensed consolidated statements of assets and liabilities. The change in deferred tax liabilities is included as a component of net unrealized appreciation (depreciation) on investments in the condensed consolidated statements of operations.

Investment Income

Interest on debt investments is accrued and included in income based on contractual rates applied to principal amounts outstanding. Interest income is determined using a method that results in a level rate of return on principal amounts outstanding. When a loan becomes 90 days or more past due, or if we otherwise do not expect to receive interest and principal repayments, the loan is placed on non-accrual status and the recognition of interest income is discontinued. Interest payments received on loans that are on non-accrual status are treated as reductions of principal until the principal is repaid.

Dividend income is recognized on an accrual basis for preferred equity securities to the extent that such amounts are expected to be collected or realized. In determining the amount of dividend income to recognize, if any, from cash distributions on common equity securities, we will assess many factors including a portfolio company's cumulative undistributed income and operating cash flow. Cash distributions from common equity securities received in excess of such undistributed amounts are recorded first as a reduction of our investment and then as a realized gain on investment.

The Company earns servicing income related to the guaranteed portions of SBA loan investments which it sells into the secondary market. These recurring fees are earned daily and recorded when earned. Servicing income is earned for the full term of the loan or until the loan is repaid.

The Company earns a variety of fees from borrowers in the ordinary course of conducting its business, including packaging, legal, late payment and prepayment fees. All other income is recorded when earned. Other income is generally non-recurring in nature and earned as "one time" fees in connection with the origination of new debt investments with non-affiliates.

Investment transactions are accounted for on a trade-date basis. Realized gains or losses on investments are measured by the difference between the net proceeds from the disposition and the cost basis of investment, without regard to unrealized gains or losses previously recognized. The Company reports current period changes in the fair value of investments as a component of the net change in unrealized appreciation (depreciation) on investments in the condensed consolidated statements of operations.

Stock - Based Compensation

The Company accounts for its equity-based compensation plan using the fair value method, as prescribed by ASC Topic 718, Stock Compensation. Accordingly, for restricted stock awards, the Company measures the grant date fair value based upon the market price of the Company's common stock on the date of the grant and amortizes this fair value to salaries and benefits ratably over the requisite service period or vesting term.

New Accounting Standards

In November 2016, the FASB issued ASU 2016-18, "Statement of Cash Flows (Topic 230): Restricted Cash (a consensus of the FASB Emerging Issues Task Force)," which requires that the statement of cash flow explain the change during the period in the total of cash, cash equivalents, and amounts generally described as restricted cash or restricted cash equivalents. Amounts generally described as restricted cash and restricted cash equivalents should be included with cash and cash equivalents when reconciling the beginning-of-period and end-of-period total amounts shown on the statement of cash flows. This ASU is effective for annual reporting periods beginning after December 15, 2017, and interim periods within those periods. Early adoption is permitted. The Company does not believe this ASU will have a material impact on its consolidated financial statements and disclosures.

In February 2016, the FASB issued ASU 2016-02, "Leases," which amends various aspects of existing accounting guidance for leases, including the recognition of a right of use asset and a lease liability for leases with a duration of greater than one year. The ASU is effective for annual reporting periods beginning after December 15, 2018, and interim periods within those periods. Early adoption is permitted. The Company has not completed its review of the new guidance; however, the Company anticipates that upon adoption of the standard it will recognize additional assets and corresponding liabilities related to leases on its consolidated statements of assets and liabilities.

In January 2016, the FASB issued ASU 2016-01, "Financial Instruments – Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities", which, among other things, requires an entity to present separately in other comprehensive income the portion of the total change in the fair value of a liability resulting from a change in the

instrument-specific credit risk when the entity has elected to measure the liability at fair value in accordance with the fair value option for financial instruments. Additionally, the ASU changes the disclosure requirements for financial instruments. This ASU is effective for annual reporting periods beginning after December 15, 2017, and interim periods within those periods, and early adoption is permitted for certain provisions. The Company does not believe this ASU will have a material impact on its consolidated financial statements and disclosures.

Segments

The Company has determined that it has a single reporting segment and operating unit structure. The Company issues debt and makes equity investments in portfolio companies in various industries. The Company separately evaluates the performance of each of its lending and investment relationships. However, because each of these debt and equity investment relationships have similar business and economic characteristics, they have been aggregated into a single lending and investment segment.

Reclassifications

Certain prior period amounts have been reclassified to conform to the current period presentation.

In April 2017, the Company invested in 100% of the common stock of a new wholly-owned, controlled portfolio company, IPM. IPM provides consulting, design and implementation of technology solutions for enterprise and commercial clients. Total consideration for the investment was \$11,120,000 and consisted of \$1,000,000 in restricted shares of Newtek common stock, \$8,752,000 in cash and \$1,368,000 to be paid in cash in two equal installments in 2018 and 2019 based on IPM attaining specific EBITDA levels for 2017 and 2018. As of September 30, 2017, the fair value of the contingent consideration liabilities was \$620,000 and is included in Accounts Payable, Accrued Expenses and other liabilities on the condensed consolidated statement of assets and liabilities.

During the three months ended September 30, 2017, a portion of IPM's business was spun off into a new wholly-owned controlled portfolio company, SIDCO. As a result, the underlying IPM business has not changed.

(1) Refer to Note 3 for discussion of investment in IPM.

Prior to January 2017, EWS was a non-control/non-affiliate investment. During the nine months ended September 30, 2017, the Company exercised warrants to purchase a 50% membership interest in EWS. Interest, fees, and dividends attributable to the investment in EWS that were credited to income prior to January 2017 are included in investment income from non-affiliate investments on the condensed consolidated statements of operations.

During the three months ended September 30, 2017, a portion of IPM's business was spun off into a new wholly-owned controlled portfolio company, SIDCO. As a result, the underlying IPM business has not changed. The Company determined the cost basis of its investments in IPM and SIDCO to be \$8,800,000 and \$2,320,000, respectively. Refer to Note 3.

NOTE 6—FAIR VALUE MEASUREMENTS:

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., the "exit price") in an orderly transaction between market participants at the measurement date. In determining fair value, management uses various valuation approaches, all of which have been approved by the Company's Board. In accordance with GAAP, a fair value hierarchy for inputs is used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available.

The fair value hierarchy gives the highest priority (Level 1) to quoted prices in active markets for identical assets or liabilities and gives the lowest priority to unobservable inputs (Level 3). An asset or liability's classification within the fair value hierarchy is based on the lowest level of significant input to its valuation. The levels of the fair value hierarchy are as follows:

- Level 1 Quoted prices in active markets for identical assets or liabilities. Level 1 assets and liabilities include debt and equity securities and derivative contracts that are traded in an active exchange market, as well as certain U.S. Treasury, other U.S. Government and agency mortgage-backed debt securities that are highly liquid and are actively traded in over-the-counter markets.
- Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities. Level 2 assets and liabilities include debt securities with quoted prices that are traded less frequently than exchange-traded instruments and derivative contracts whose value is determined using a pricing model with inputs that are observable in the market or can be derived principally from or corroborated by observable market data. This category generally includes certain U.S. Government and agency mortgage-backed debt securities, corporate debt securities, derivative contracts and residential mortgage loans held-for-sale.
- Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. Level 3 assets and liabilities include financial instruments whose value is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation. This category generally includes certain private equity investments, retained residual interests in securitizations, residential mortgage servicing rights, and highly structured or long-term derivative contracts.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, an asset or a liability's categorization within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the asset or liability. The Company assesses the levels of assets and liabilities at each measurement date, and transfers between levels are recognized on the actual date of the event or change in circumstances that caused the transfers. There were no transfers among Level 1, 2 and 3 of the fair value hierarchy for assets and liabilities during the nine months ended September 30, 2017 or 2016. The following section describes the valuation techniques used by the Company to measure different assets and liabilities at fair value and includes the level within the fair value hierarchy in which the assets and liabilities are categorized.

Level 1 investments are valued using quoted market prices. Level 2 investments are valued using market consensus prices that are corroborated by observable market data and quoted market prices for similar assets and liabilities. Level 3 investments are valued at fair value as determined in good faith by the Board, based on input of management, the audit committee and independent valuation firms that have been engaged at the direction of the Board to assist in the valuation of certain portfolio investments without a readily available market quotation at least once during a trailing twelve-month period under a valuation policy and a consistently applied valuation process.

When determining fair value of Level 3 debt and equity investments, the Company may take into account the following factors, where relevant: the enterprise value of a portfolio company, the nature and realizable value of any collateral, the portfolio company's ability to make payments, its earnings and discounted cash flows, the markets in which the portfolio company does business, comparisons to publicly traded securities, changes in the interest rate environment and the credit markets generally that may affect the price at which similar investments may be made and other relevant factors. The primary methods for determining enterprise value include a discounted cash flow analysis and a multiple analysis whereby appropriate multiples are applied to the portfolio company's EBITDA or revenue. The enterprise value analysis is performed to determine the value of equity investments and to determine if debt investments are credit impaired. If debt investments are credit impaired, the Company will use the enterprise value analysis to determine fair value. For debt investments that are not determined to be credit impaired, the Company uses a market interest rate yield analysis to determine fair value.

In addition, for certain debt investments, the Company may base its valuation on quotes provided by an independent third party broker.

Due to the inherent uncertainty of determining the fair value of Level 3 investments that do not have a readily available market value, the fair value of the investments may differ significantly from the values that would have been used had a ready market existed for such investments and may differ materially from the values that may ultimately be received or settled. Further, such investments are generally subject to legal and other restrictions or otherwise are less liquid than publicly traded instruments. If the Company were required to liquidate a portfolio investment in a forced or liquidation sale, the Company may realize significantly less than the value at which such investment had previously been recorded.

The Company's investments are subject to market risk. Market risk is the potential for changes in the value due to market changes. Market risk is directly impacted by the volatility and liquidity in the markets in which the investments are traded.

The following tables present fair value measurements of the Company's assets and liabilities measured at fair value and indicates the fair value hierarchy of the valuation techniques utilized by the Company to determine such fair values as of September 30, 2017 and December 31, 2016:

NOTE 10—STOCK BASED COMPENSATION:

Stock Plan

The Company accounts for its stock-based compensation plan using the fair value method, as prescribed by ASC 718, Compensation—Stock Compensation. Accordingly, for restricted stock awards, the Company measured the grant date fair value based upon the market price of its common stock on the date of the grant and amortizes the fair value of the awards as stock-based compensation expense over the requisite service period, which is generally the vesting term.

The Board approves the issuance of shares of restricted stock to employees and directors pursuant to the Equity Incentive Plan. These shares generally vest over a one or two year period from the grant date. The fair value is expensed over the service period, starting on the grant date. The following table summarizes the restricted stock issuances under the Equity Incentive Plan, net of shares forfeited, if any, and the remaining shares of restricted stock available for issuance as of September 30, 2017.

| Restricted stock authorized under the plan (1) | 1,500,000 |
|--|-----------|
| Less restricted stock granted during: | |
| Year ended December 31, 2016 | (120,933) |
| Nine months ended September 30, 2017 | (5,007) |
| Restricted stock available for issuance as of September 30, 2017 | 1,374,060 |

(1) A maximum of 20% of total shares of common stock issued and outstanding, calculated on a fully diluted basis, not to exceed 3,000,000 shares, are available for awards of restricted stock and stock options under the Equity Incentive Plan. No more than 50% of the shares of stock reserved for the grant of awards under the Equity Incentive Plan may be restricted stock awards at any time during the term of the Equity Incentive Plan. No stock options have been granted under the Equity Incentive Plan.

This capability is supported in large part by NewTracker®, our patented prospect management technology software, which is similar to but we believe better than the system popularized by Salesforce.com. We believe that this technology and business model distinguishes us from our competitors.

We consolidate the following wholly-owned subsidiaries:

We are an internally-managed, closed-end, non-diversified investment company that has elected to be regulated as a BDC under the 1940 Act. In addition, for U.S. federal income tax purposes, we have elected to be treated as a RIC under the Code beginning in our 2015 tax year ended December 31, 2015. As a BDC and a RIC, we are also subject to certain constraints, including limitations imposed by the 1940 Act and the Code. We converted to a BDC in November 2014. As a result, previously consolidated subsidiaries are now recorded as investments in controlled portfolio companies, at fair value. NSBF is a consolidated subsidiary and originates loans under the SBA's 7(a) program.

Our common shares are currently listed on the Nasdaq Global Market under the symbol "NEWT".

NSBF has been granted PLP status and originates, sells and services SBA 7(a) small business loans and is authorized to place SBA guarantees on loans without seeking prior SBA review and approval. Being a national lender, PLP status allows NSBF to expedite the origination of loans since NSBF is not required to present applications to the SBA for concurrent review and

approval. The loss of PLP status could adversely impact our marketing efforts and ultimately our loan origination volume which could negatively impact our results of operations.

As a BDC, our investment objective is to generate both current income and capital appreciation primarily through loans originated by our small business finance platform and our equity investments in certain portfolio companies that we control.

We target our debt investments, which are principally made through our small business finance platform under the SBA 7(a) program, to produce a coupon rate of prime plus 2.75% which enables us to generate rapid sales of loans in the secondary market. We typically structure our debt investments with the maximum seniority and collateral along with personal guarantees from portfolio company owners, in many cases collateralized by other assets including real estate. In most cases, our debt investment will be collateralized by a first lien on the assets of the portfolio company and a first or second lien on assets of guarantors, in both cases primarily real estate. All SBA loans are made with personal guarantees from any owner(s) of 20% or more of the portfolio company's equity.

We typically structure our debt investments to include non-financial covenants that seek to minimize our risk of capital loss such as lien protection and prohibitions against change of control. Our debt investments have strong protections, including default penalties, information rights and, in some cases, board observation rights and affirmative, negative and financial covenants. Debt investments in portfolio companies, including the controlled portfolio companies, have historically and are expected to continue to comprise the majority of our overall investments in number and dollar volume.

While the vast majority of our investments have been structured as debt, we have in the past and expect in the future to make selective equity investments primarily as either strategic investments to enhance the integrated operating platform or, to a lesser degree, under the Capco programs. For investments in our controlled portfolio companies, we focus more on tailoring them to the long term growth needs of the companies than to immediate return. Our objectives with these companies is to foster the development of the businesses as a part of the integrated operational platform of serving the SMB market, so we may reduce the burden on these companies to enable them to grow faster than they would otherwise and as another means of supporting their development.

We regularly engage in discussions with third parties with respect to various potential transactions. We may acquire an investment or a portfolio of investments or an entire company or sell a portion of our portfolio on an opportunistic basis. We, our subsidiaries, or our affiliates may also agree to manage certain other funds that invest in debt, equity or provide other financing or services to companies in a variety of industries for which we may earn management or other fees for our services. We may also invest in the equity of these funds, along with other third parties, from which we would seek to earn a return and/or future incentive allocations. Some of these transactions could be material to our business. Consummation of any such transaction will be subject to completion of due diligence, finalization of key business and financial terms (including price) and negotiation of final definitive documentation as well as a number of other factors and conditions including, without limitation, the approval of our board of directors and required regulatory or third party consents and, in certain cases, the approval of our shareholders. Accordingly, there can be no assurance that any such transaction would be consummated. Any of these transactions or funds may require significant management resources either during the transaction phase or on an ongoing basis depending on the terms of the transaction.

Revenues

We generate revenue in the form of interest, dividend, servicing and other fee income on debt and equity investments. Our debt investments typically have terms of 10 to 25 years and bear interest at prime plus a margin. In some instances, we receive payments on our debt investments based on scheduled amortization of the outstanding balances. In addition, we receive repayments of some of our debt investments prior to their scheduled maturity date. The frequency or volume of these repayments fluctuates significantly from period to period. Our portfolio activity also reflects the proceeds of sales of securities. We receive servicing income related to the guaranteed portions of SBA investments which we sell into the secondary market. These recurring fees are earned daily and recorded when earned. In addition, we may generate revenue in the form of packaging, prepayment, legal and late fees. We record such fees related to loans as other income. Dividends are recorded as dividend income on an accrual basis to the extent that such amounts are payable by the portfolio company and are expected to be collected. Dividend income is recorded at the time dividends are declared. Distributions of earnings from portfolio companies are evaluated to determine if the distribution is income, return of capital or realized gain.

We recognize realized gains or losses on investments based on the difference between the net proceeds from the disposition and the cost basis of the investment without regard to unrealized gains or losses previously recognized. We record current period changes in fair value of investments and assets that are measured at fair value as a component of the net change in unrealized

appreciation (depreciation) on investments or servicing assets, as appropriate, in the condensed consolidated statements of operations.

Expenses

Our primary operating expenses are salaries and benefits, interest expense and other general and administrative costs, such as professional fees, marketing, loan related costs and rent. Since we are an internally-managed BDC with no outside adviser or management company, the BDC incurs all the related costs to operate the Company.

Guarantees

We also earned \$200,000 of dividend income from IPM, a new wholly-owned controlled portfolio company that we invested in on April 6, 2017. These increases were offset by decreases in dividend income earned from NTS, SBL and BSP. Dividend income is dependent on portfolio company earnings. Current quarter dividend income may not be indicative of future period dividend income.

NSBF Servicing Portfolio and Related Servicing Income

The following table represents the NSBF originated servicing portfolio and servicing income earned for the three months ended September 30, 2017 and 2016:

| (in thousands): | Three Months Ended September 30, 2017 | | | Three Months Ended September 30, 2016 | Change | | |

The increase in servicing income was attributable to the increase in total portfolio investments for which we earn servicing income. The portfolio earning servicing income increased \$145,630,000 period over period. The increase was a direct result of increased investments in SBA non-affiliate investments from September 30, 2017 to September 30, 2016.

During the three months ended September 30, 2017, we reduced the contingent consideration liability by \$748,000 based on the probability of IPM attaining specific EBITDA levels for 2017 and 2018.

Net Realized Gains and Net Unrealized Appreciation and Depreciation

Net realized gains or losses on investments are measured by the difference between the net proceeds from the repayment or sale and the cost basis of our investments without regard to unrealized appreciation or depreciation previously recognized and includes investments charged off during the period, net of recoveries. Net realized gains for the three months ended September 30, 2017 and 2016 were \$9,938,000 and \$8,716,000, respectively. Realized losses were \$87,000 and \$777,000 during the three months ended September 30, 2017 and 2016, respectively. The net change in unrealized appreciation or depreciation or investments primarily reflects the change in portfolio investment fair values during the reporting period, including the reversal of previously recorded unrealized appreciation or depreciation.

Unrealized appreciation of SBA guaranteed investments represents the fair value adjustment of guaranteed portions of loans which have not yet been sold. Unrealized depreciation represents the reversal of unrealized appreciation when the loans are sold.

Unrealized appreciation related to our investment in UPSW was primarily related to a decrease in the weighted average cost of capital during the three months ended September 30, 2017. Unrealized appreciation related to our investment in NBCS was the result of continued growth in EBITDA.

Unrealized depreciation related to our investment in NTS was related to continued weak financial performance. During the three months ended September 30, 2017, we made a \$1,000,000 debt investment in NPS. Due to NPS' continued negative cash flows, we recorded an unrealized loss of \$1,000,000 on our debt investment in NPS due to the unlikelihood of collection. During the three months ended September 30, 2017, the Company recorded a \$2,000,000 unrealized loss on its investment in BSP to reflect the potential impact to the business and tradename as a result of the FBI investigation discussed in Note 8.

Provision for Deferred Taxes on Unrealized Appreciation of Investments

Certain consolidated subsidiaries are subject to U.S. federal and state income taxes. These taxable subsidiaries are not consolidated with the Company for income tax purposes, but are consolidated for GAAP purposes, and may generate income tax liabilities or assets from temporary differences in the recognition of items for financial reporting and income tax purposes at the subsidiaries. During the three months ended September 30, 2017, we recognized a benefit from deferred taxes of \$335,000 related to unrealized depreciation of certain controlled portfolio company investments. During the three months ended September 30, 2016, we recognized a provision for deferred taxes of \$2,028,000 related to unrealized appreciation of certain controlled portfolio company investments.

Dividend income decreased \$393,000 period over period. During the nine months ended September 30, 2017, we earned \$200,000 of dividend income from NBCS and \$550,000 of dividend income from IPM, a new wholly-owned controlled portfolio company that we invested in on April 6, 2017. Dividend income earned from UPSW increased \$750,000 period over period. These increases were offset by decreases in dividend income earned from NTS, SBL and BSP. Dividend income is dependent on portfolio company earnings. Current period dividend income may not be indicative of future period dividend income.

NSBF Servicing Portfolio and Related Servicing Income

The following table represents NSBF originated servicing portfolio and servicing income earned for the nine months ended September 30, 2017 and 2016:

| (in thousands): | Nine Months Ended September 30, 2017 | Nine Months Ended September 30, 2016 | Change | | |
|--|---|---|--------|---------|--|
| Total NSBF originated servicing portfolio ⁽¹⁾ | \$ 1,127,760 | \$ 902,604 | \$ | 225,156 | |
| Total servicing income earned | \$ 5,163 | \$ 4,581 | \$ | 582 | |

The increase in servicing income was attributable to the increase in total portfolio investments for which we earn servicing income. The portfolio earning servicing income increased \$144,883,000 period over period. The increase was a direct result of increased investments in SBA non-affiliate investments from September 30, 2017 to September 30, 2016.

Other Income

Other income relates primarily to legal, packaging, prepayment, and late fees earned from SBA loans. The increase was related to an increase in legal and packaging fees earned as a result of the larger dollar volume of loans funded.

The additional headcount relates primarily to employees performing loan processing, loan closing or loan servicing functions as a result of the increase in loan originations. The increase in salaries and benefits was also related to a \$678,000 increase in stock-based compensation expense period over period.

Interest Expense

The following is a summary of interest expense by facility for the nine months ended September 30, 2017 and 2016:

| (<u>in thousands)</u> | Nine Months Ended September 30, 2017 | Nine Months Ended September 30, 2016 | | | Change |
|---------------------------------------|---|---|-------|----|--------|
| Notes payable - Securitization trusts | \$ 4,096 | \$ | 2,808 | \$ | 1,288 |
| Bank notes payable | 700 | | 840 | | (140) |
| Notes due 2022 | 530 | | 531 | | (1) |

| Other | 17 | | 40 | | (23) |
| Total interest expense | \$ 8,133 | \$ | 5,804 | \$ | 2,329 |

The increase in interest expense period over period is primarily related to interest from the Notes payable - Securitization trusts, 2021 Notes and Notes payable - related parties. The increase from Notes payable - Securitization trusts was the result of an additional securitization transaction completed in November 2016.

In April 2016, we issued \$40,250,000 of 2021 Notes. During the nine months ended September 30, 2017, we incurred \$2,372,000 of interest expense. During the nine months ended September 30, 2016, we incurred only a partial period worth of interest expense.

The increase from Notes payable - related parties was related to the increase in the average outstanding balance during each period.

Change in Fair Value of Contingent Consideration

A portion of our investment in IPM consisted of contingent consideration based on IPM attaining specific EBITDA levels for 2017 and 2018. During the nine months ended September 30, 2017, we reduced the contingent consideration liability by \$748,000 based on the probability of IPM attaining specific EBITDA levels for 2017 and 2018.

Other General and Administrative Costs

Net Realized Gains and Net Unrealized Appreciation and Depreciation

Net realized gains for the nine months ended September 30, 2017 and 2016 were \$27,537,000 and \$22,536,000, respectively. Realized losses were \$131,000 and \$763,000 during the nine months ended September 30, 2017 and 2016, respectively. The net change in unrealized appreciation or depreciation on investments primarily reflects the change in portfolio investment fair values during the reporting period, including the reversal of previously recorded unrealized appreciation or depreciation when gains or losses are realized.

In May 2017, NSBF amended its Capital One facility to increase the facility from \$50,000,000 to \$100,000,000 and provided a reduction in interest rates. The interest rate on the portion of the facility, collateralized by the government guaranteed portion of SBA 7(a) loans, is set at Prime minus 0.25% (previously Prime plus 1.00%), and there is a quarterly facility fee equal to 0.25% on the unused portion of the revolving credit calculated as of the end of each calendar quarter. The interest rate on the portion of the facility, collateralized by the non-guaranteed portion of SBA 7(a) loans, is set at Prime plus 0.75% (previously Prime plus 1.875%), and there is a quarterly facility fee equal to 0.25% on the unused portion of the revolving credit calculated as of the end of each calendar quarter. The facility provides for a 55% advance rate on the non-guaranteed portions of the SBA 7(a) loans NSBF originates, and a 90% advance rate on the guaranteed portions of SBA 7(a) loans NSBF originates. In addition, the amendment extended the date on which the facility will convert to a term loan from May 16, 2017 to May 11, 2020 and extended the maturity date of the facility to May 11, 2022.

Securitization Transactions

Since 2010, NSBF has engaged in securitizations of the unguaranteed portions of its SBA 7(a) loans. In the securitization, it uses a special purpose entity (the "Trust") which is considered a variable interest entity. Applying the consolidation requirements for VIEs under the accounting rules in ASC Topic 860, Transfers and Servicing, and ASC Topic 810, Consolidation, which became effective January 1, 2010, the Company determined that as the primary beneficiary of the securitization vehicle, based on its power to direct activities through its role as servicer for the Trust and its obligation to absorb losses and right to receive benefits, it needed to consolidate the Trusts. NSBF therefore consolidated the entity using the carrying amounts of the Trust's assets and liabilities. NSBF reflects the assets in SBA Unguaranteed Non-Affiliate Investments and reflects the associated financing in Notes Payable - Securitization Trusts.

In November 2016, NSBF completed its seventh securitization which resulted in the transfer of \$56,073,000 of unguaranteed portions of SBA loans to the 2016-1 Trust. The 2016-1 Trust in turn issued securitization notes for the par amount of \$53,444,000, consisting of \$43,632,000 Class A notes and \$9,812,000 of Class B notes, against the assets in a private placement. The Class A and Class B notes received an "A" and "BBB+" rating by S&P, respectively, and the final maturity date of the notes is February 2042.

Critical Accounting Policies and Estimates

The preparation of financial statements and related disclosures in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and revenues and expenses during the periods reported. Actual results could materially differ from those estimates. We have identified the following items as critical accounting policies.

Fair Value Measurements

We value investments for which market quotations are readily available at their market quotations. However, a readily available market value is not expected to exist for many of the investments in our portfolio, and we value these portfolio investments at fair value as determined in good faith by our Board under our valuation policy and process. We may seek pricing information with respect to certain of our investments from pricing services or brokers or dealers in order to value such investments. We also employ independent third party valuation firms for certain of our investments for which there is not a readily available market value.

The application of our valuation methods may include comparisons of the portfolio companies to peer companies that are public, the enterprise value of a portfolio company, the nature and realizable value of any collateral, the portfolio company's ability to make payments and its earnings, discounted cash flow, the markets in which the portfolio company does business and other relevant factors. When an external event such as a purchase transaction, public offering or subsequent equity sale occurs, we will consider the pricing indicated by the external event to corroborate the private equity valuation. Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of the investments may differ significantly from the values that would have been used had a readily available market value existed for such investments and may differ materially from values that may ultimately be received or settled.

Our Board is ultimately and solely responsible for determining, in good faith, the fair value of investments that are not publicly traded, whose market prices are not readily available on a quarterly basis or any other situation where portfolio investments require a fair value determination.

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). ASC 820 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three levels for disclosure purposes. The Company carries all investments at fair value. Additionally, the Company carries its credits in lieu of cash, notes payable in credits in lieu of cash, and servicing assets at fair value. The fair value hierarchy gives the highest priority (Level 1) to quoted prices in active markets for identical assets or liabilities and gives the lowest priority to unobservable inputs (Level 3). An asset or liability's classification within the fair value hierarchy is based on the lowest level of the significant input to its valuation. The levels of the fair value hierarchy are as follows:

- Level 1 Quoted prices in active markets for identical assets or liabilities. Level 1 assets and liabilities include debt and equity securities and derivative contracts that are traded in an active exchange market, as well as certain U.S. Treasury, other U.S. Government and agency mortgage-backed debt securities that are highly liquid and are actively traded in over-the-counter markets.
- Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities. Level 2 assets and liabilities include debt securities with quoted prices that are traded less frequently than exchange-traded instruments and derivative contracts whose value is determined using a pricing model with inputs that are observable in the market or can be derived principally from or corroborated by observable market data. This category generally includes certain U.S. Government and agency mortgage-backed debt securities, corporate debt securities, derivative contracts and residential mortgage loans held-for-sale.
- Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. Level 3 assets and liabilities include financial instruments whose value is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation. This category generally includes certain private equity investments, retained residual interests in securitizations, residential mortgage servicing rights, and highly structured or long-term derivative contracts.

Valuation of Investments

Level 1 investments are valued using quoted market prices. Level 2 investments are valued using market consensus prices that are corroborated by observable market data and quoted market prices for similar assets and liabilities. Level 3 investments are valued at fair value as determined in good faith by the Board, based on input of management, the audit committee and independent valuation firms that have been engaged at the direction of the Board to assist in the valuation of certain portfolio investments without a readily available market quotation at least once during a trailing twelve-month period under a valuation policy and a consistently applied valuation process.

When determining fair value of Level 3 debt and equity investments, the Company may take into account the following factors, where relevant: the enterprise value of a portfolio company, the nature and realizable value of any collateral, the portfolio company's ability to make payments and its earnings and discounted cash flows, the markets in which the portfolio company does business, comparisons to publicly traded securities, and changes in the interest rate environment and the credit markets generally that may affect the price at which similar investments may be made and other relevant factors. The primary method for determining enterprise value uses a multiple analysis whereby appropriate multiples are applied to the portfolio company's EBITDA or revenue. The enterprise value analysis is performed to determine the value of equity investments and to determine if debt investments are credit impaired. If debt investments are credit impaired, the Company will use the enterprise value analysis or a liquidation basis analysis to determine fair value. For debt investments that are not determined to be credit impaired, the Company uses a market interest rate yield analysis to determine fair value.

In addition, for certain debt investments, the Company may base its valuation on quotes provided by an independent third party broker.

Due to the inherent uncertainty of determining the fair value of Level 3 investments that do not have a readily available market value, the fair value of the investments may differ significantly from the values that would have been used had a ready market existed for such investments and may differ materially from the values that may ultimately be received or settled. Further, such investments are generally subject to legal and other restrictions or otherwise are less liquid than publicly traded instruments. If the Company were required to liquidate a portfolio investment in a forced or liquidation sale, the Company may realize significantly less than the value at which such investment had previously been recorded.

The Company's investments are subject to market risk. Market risk is the potential for changes in the value due to market changes. Market risk is directly impacted by the volatility and liquidity in the markets in which the investments are traded.

Income Recognition

Interest on loan investments is accrued and included in income based on contractual rates applied to principal amounts outstanding. Interest income is determined using a method that results in a level rate of return on principal amounts outstanding. When a loan becomes 90 days or more past due, or if we otherwise do not expect to receive interest and principal repayments, the loan is placed on non-accrual status and the recognition of interest income is discontinued. Interest payments received on loans that are on non-accrual status are treated as reductions of principal until the principal is repaid.

We receive servicing income related to the guaranteed portions of SBA loan investments which we sell into the secondary market. These recurring fees are earned daily and recorded when earned. Servicing income is earned for the full term of the loan or until the loan is repaid.

We receive a variety of fees from borrowers in the ordinary course of conducting our business, including packaging fees, legal fees, late fees and prepayment fees. All other income is recorded when earned.

Dividend income is recorded at the time dividends are declared. Distributions of earnings from a portfolio companies are evaluated to determine if the distribution is income, return of capital or realized gain.

Income Taxes

Deferred tax assets and liabilities are computed based upon the differences between the financial statement and income tax basis of assets and liabilities using the enacted tax rates in effect for the year in which those temporary differences are expected to be realized or settled. If available evidence suggests that it is more likely than not that some portion or all of the deferred tax assets will not be realized, a valuation allowance is required to reduce the deferred tax assets to the amount that is more likely than not to be realized.

The Company's U.S. federal and state income tax returns prior to fiscal year 2013 are generally closed, and management continually evaluates expiring statutes of limitations, audits, proposed settlements, changes in tax law and new authoritative rulings.

The Company has elected to be treated as a RIC beginning with the 2015 tax year under the Code and operates in a manner so as to continue to qualify for the tax treatment applicable to RICs. The RIC tax return includes Newtek Business Services Corp. and NSBF, a single member LLC disregarded for tax purposes. None of the Company's other subsidiaries are included in the RIC return. The Company will evaluate and record any deferred tax assets and liabilities of the subsidiaries that are not part of the RIC. In order to maintain its RIC tax treatment, among other things, the Company is required to meet certain source of income and asset diversification requirements and timely distribute to its shareholders at least 90% of investment company taxable income, as defined by the Code, for each tax year. The Company intends to make the requisite distributions to its shareholders, which will generally relieve the Company from U.S. federal income taxes with respect to all income distributed to its shareholders as dividends.

Depending on the level of taxable income earned in a tax year, the Company may choose to retain taxable income in excess of current year dividend distributions, and would distribute such taxable income in the next tax year. The Company would then pay a 4% excise tax on such income, as required. To the extent that the Company determines that its estimated current year annual taxable income, determined on a calendar year basis, could exceed estimated current calendar year dividend distributions, the Company accrues excise tax, if any, on estimated excess taxable income as taxable income is earned. For the three and nine months ended September 30, 2017 and 2016, no U.S. federal excise taxes were due.

The Company's Taxable Subsidiaries accrue income taxes payable based on the applicable corporate rates on the unrealized gains generated by the investments held by the Taxable Subsidiaries. Such deferred tax liabilities were \$5,240,000 and \$5,983,000 at September 30, 2017 and December 31, 2016, respectively and are recorded as deferred tax liabilities on the condensed consolidated statements of assets and liabilities. The change in deferred tax liabilities is included as a component of net realized and unrealized gains in the condensed consolidated statements of operations.

New Accounting Standards

In November 2016, the FASB issued ASU 2016-18, "Statement of Cash Flows (Topic 230): Restricted Cash (a consensus of the FASB Emerging Issues Task Force)," which requires that the statement of cash flow explain the change during the period in the total of cash, cash equivalents, and amounts generally described as restricted cash or restricted cash equivalents. Amounts generally described as restricted cash and restricted cash equivalents should be included with cash and cash equivalents when reconciling the beginning-of-period and end-of-period total amounts shown on the statement of cash flows. This ASU is effective for annual reporting periods beginning after December 15, 2017, and interim periods within those periods. Early adoption is permitted. The Company does not believe this ASU will have a material impact on its consolidated financial statements and disclosures.

In February 2016, the FASB issued ASU 2016-02, "Leases," which amends various aspects of existing accounting guidance for leases, including the recognition of a right of use asset and a lease liability for leases with a duration of greater than one year. The ASU is effective for annual reporting periods beginning after December 15, 2018, and interim periods within those periods. Early adoption is permitted. The Company has not completed its review of the new guidance; however, the Company anticipates that upon adoption of the standard it will recognize additional assets and corresponding liabilities related to leases on its consolidated statements of assets and liabilities.

In January 2016, the FASB issued ASU 2016-01, "Financial Instruments – Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities", which, among other things, requires an entity to present separately in other comprehensive income the portion of the total change in the fair value of a liability resulting from a change in the instrument-specific credit risk when the entity has elected to measure the liability at fair value in accordance with the fair value option for financial instruments. Additionally, the ASU changes the disclosure requirements for financial instruments. This

ASU is effective for annual reporting periods beginning after December 15, 2017, and interim periods within those periods, and early adoption is permitted for certain provisions. The Company does not believe this ASU will have a material impact on its consolidated financial statements and disclosures.

Off Balance Sheet Arrangements

Recent Developments

Portfolio Company Developments

On October 13, 2017, the Company announced that its portfolio company, BSP, was served with a search warrant by the Federal Bureau of Investigation on October 12, 2017 at BSP's offices in Westfield, Indiana. The Company closed on its \$5,400,000 investment in BSP in June 2016. The Company is monitoring the situation and is cooperating fully with the authorities. While the outcome of this situation cannot at this time be predicted with certainty, the Company does not expect that the matter will materially affect the Company's financial condition or results of operations.

On October 24, 2017, the Company invested in 100% of the membership interests of a new wholly-owned, controlled portfolio company, United Capital Source, LLC ("UCS"), which is a lead generator for commercial financing companies. Total consideration paid by the Company was \$3,050,000 and consisted of \$500,000 in restricted shares of Newtek common stock and \$1,950,000 in cash, with the \$600,000 balance to be paid in cash and Newtek common stock, in two equal installments in 2018 and 2019 based on UCS attaining specific EBITDA targets for 2019 and 2020.

Common Stock

From October 1, 2017 through November 6, 2017 the Company sold 245,746 shares of its common stock at a weighted average price of \$17.54 per share under the ATM Equity Distribution Agreement. Proceeds, net of offering costs and expenses were \$4,223,000. As of November 6, 2017, there were 2,199,000 shares of common stock available for sale under the ATM Equity Distribution Agreement.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

We consider the principal types of risk in our investing activities to be fluctuations in interest rates and loan portfolio valuations and the availability of the secondary market for our SBA loans. Risk management systems and procedures are designed to identify and analyze our risks, to set appropriate policies and limits and to continually monitor these risks and limits by means of reliable administrative and information systems and other policies and programs.

NSBF primarily lends at an interest rate of prime, which resets on a quarterly basis, plus a fixed margin. The Capital One revolver lines as well as the securitization notes are on a prime plus a fixed factor basis. As a result, the Company believes it has matched its cost of funds to its interest income in its financing activities. However, because of the differential between the amount lent and the smaller amount financed a significant change in market interest rates will have a material effect on our income. In periods of sharply rising interest rates, our cost of funds will increase at a slower rate than the interest income earned on the loans we have made; this should improve our net investment income, holding all other factors constant. However, a reduction in interest rates will result in the Company experiencing a reduction in investment income; that is, its interest income will decline more quickly than interest expense resulting in a net reduction of benefit to investment income.

NSBF depends on the availability of secondary market purchasers for the guaranteed portions of SBA loans and the premium received on such sales to support its lending operations. At this time the secondary market for the guaranteed portions of SBA loans is robust but during the 2008 and 2009 financial crisis the Company had difficulty selling its loans for a premium; although not expected at this time, if such conditions did recur NSBF would most likely cease making new loans and could experience a substantial reduction in profitability.

We do not have significant exposure to changing interest rates on invested cash (includes cash and cash equivalents, restricted cash and money market funds) which was approximately \$30,527,000 at September 30, 2017. We do not purchase or hold

derivative financial instruments for trading purposes. All of our transactions are conducted in U.S. dollars and we do not have any foreign currency or foreign exchange risk. We do not trade commodities or have any commodity price risk.

We believe that we have placed our demand deposits, cash investments and their equivalents with high credit-quality financial institutions. Invested cash is held almost exclusively at financial institutions of high credit quality. The Company invests cash not held in interest free checking accounts or bank money market accounts mainly in U.S. Treasury only money market instruments or funds and other investment-grade securities. As of September 30, 2017, cash deposits in excess of insured amounts totaled approximately \$11,068,000.

ITEM 4. CONTROLS AND PROCEDURES.

As of the period covered by this report, we, including our chief executive officer and chief accounting officer, evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended, or the Exchange Act). Based on our evaluation, our management, including the chief executive officer and chief accounting officer, concluded that our disclosure controls and procedures were effective in timely alerting management, including the chief executive officer and chief accounting officer, of material information about us required to be included in our periodic SEC filings. However, in evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, are based upon certain assumptions about the likelihood of future events and can provide only reasonable assurance of achieving the desired control objectives, and management necessarily was required to apply its judgment in evaluating the costbenefit relationship of possible controls and procedures. There has not been any change in our internal controls over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) that occurred during the period covered by this report that has materially affected, or is reasonably likely to materially affect, our internal controls over financial reporting.

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS.

In the ordinary course of business, the Company and its wholly-owned portfolio companies may from time to time be party to lawsuits and claims. The Company evaluates such matters on a case by case basis and its policy is to contest vigorously any claims it believes are without compelling merit. The Company is not currently involved in any litigation matters.

ITEM 1A. RISK FACTORS.

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part I, "Item 1A. Risk Factors" in our Annual Report on Form 10-K for the fiscal year ended December 31, 2016, which could materially affect our business, financial condition and/or operating results. The risks described in our Annual Report on Form 10-K are not the only risks we face. Additional risks and uncertainties that are not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results. There have been no material changes from the risk factors set forth in our Annual Report on Form 10-K for the year ended December 31, 2016.
