- The Company recognized \$0.43 million of dividend income from NCL during the three months ended September 30, 2019.

Subsequent Third Quarter 2019 Highlights

 On October 4, 2019, the Company closed its tenth and largest small business loan securitization, with the sale of \$118,920,000 of Unguaranteed SBA 7(a) Loan-Backed Notes, Series 2019-1, consisting of \$93,540,000 of Class A Notes and \$25,380,000 Class B Notes (collectively, the "Notes"), rated "A" and "BBB-", respectively, by S&P Global Ratings.

Barry Sloane, Chairman, President and Chief Executive Officer said, "We are pleased to report our results for the three and nine months ended September 30, 2019. With the payment of the fourth quarter 2019 dividend on December 30, 2019, our 2019 annual dividend of \$2.15 per share will represent a 19.4% increase over our 2018 annual dividend. On the heels of this almost 20% year-over-year dividend increase, we are issuing our annual 2020 dividend forecast of \$2.19 per share, which would represent an approximate 2% increase over the 2019 annual dividend and leans towards conservatism. We historically have issued annual dividend guidance approximately 14 months in advance and have consistently explained to the investment community that due to operational aspects of our business, our quarterly dividend payments typically fluctuate. In addition, as a result of our continued focus on our portfolio companies, we anticipate the growth of contributions to our income from the non-SBA 7(a) portions of the business, which we believe is a tremendous strength of our business model. Our goal is to meet and exceed our performance objectives and hurdles. We believe we are one of the few BDCs that has consistently increase on an annual basis over the past 4 years has been approximately 10%, including newly issued annual 2020 dividend forecast."

Mr. Sloane continued, "With the addition of the non-conforming conventional loan business, we have augmented the Company's diversified streams of income while leveraging the Newtek business lending platform and brand. Since NCL began operations in May 20, 2019, through October 31, 2019, NCL has closed over \$55 million of non-conforming conventional loans, and we are optimistic that we will continue this closing pace through the remainder of 2019. In addition, we are seeing improvements in the performance of Newtek's other portfolio companies, which are part of our diversified business model that serves independent business owners in all 50 states."

Mr. Sloane concluded, "Our net investment income (loss) for the three and nine months ended September 30, 2019 realized significant year-over-year improvement as our unguaranteed loan portfolio continues to grow and our cost of debt continues to shrink. Our recent \$63.3 million 5.75% bond issue (Nasdaq: NEWTL), traded at a premium to par at a yield of 5.57% as of October 31, 2019. In addition, we issued our tenth and largest securitization in our nine-year securitization history - which issuance garnered our largest advance rate and best pricing of 183 basis points over LIBOR - since our first securitization in 2010. Our growing portfolio of floating-rate loans without caps, and a decrease in our cost of debt financing, are material contributors to the improvement in our net investment income (loss). Finally, our servicing income and the distributions from our portfolio companies also contributed to the 58.8% year-over-year improvement in net investment income (loss) for the nine months ended September 30, 2019. We have an abundance of information to cover during our earnings conference call tomorrow morning, and look forward to our discussion with the investment community."

¹<u>Use of Non-GAAP Financial Measures - Newtek Business Services Corp. and Subsidiaries</u>

In evaluating its business, Newtek considers and uses ANII as a measure of its operating performance. ANII includes short-term capital gains from the sale of the guaranteed portions of SBA 7(a) loans and conventional loans, and beginning in 2016, capital gain distributions from controlled portfolio

companies, which are reoccurring events. The Company defines ANII as Net investment income (loss) plus Net realized gains recognized from the sale of guaranteed portions of SBA 7(a) loan investments, less realized losses on non-affiliate investments, plus or minus loss on lease adjustment, plus the net realized gains on controlled investments, plus or minus the change in fair value of contingent consideration liabilities, plus loss on extinguishment of debt.

The term ANII is not defined under U.S. generally accepted accounting principles, or U.S. GAAP, and is not a measure of operating income, operating performance or liquidity presented in accordance with U.S. GAAP. ANII has limitations as an analytical tool and, when assessing the Company's operating performance, investors should not consider ANII in isolation, or as a substitute for net investment income, or other consolidated income statement data prepared in accordance with U.S. GAAP. Among other things, ANII does not reflect the Company's actual cash expenditures. Other companies may calculate similar measures differently than Newtek, limiting their usefulness as comparative tools. The Company compensates for these limitations by relying primarily on its GAAP results supplemented by ANII.

²<u>Note Regarding Dividend Payments</u>

Amount and timing of dividends, if any, remain subject to the discretion of the Company's Board of Directors. The Company's Board of Directors expects to maintain a dividend policy with the objective of making quarterly distributions in an amount that approximates 90 - 100% of the Company's annual taxable income. The determination of the tax attributes of the Company's distributions is made annually as of the end of the Company's fiscal year based upon its taxable income for the full year and distributions paid for the full year.
