NewtekOne, Inc. Reports Second Quarter 2023 Financial Results; Conference Call Tomorrow 8:30 AM ET

Newtek Bank, N.A. Achieves Record Deposit Growth and Loan Fundings

Boca Raton, Fla., August 2, 2023 - NewtekOne, Inc. (Nasdaq: NEWT), announced today its financial and operating results for the three and six months ended June 30, 2023.

This is NewtekOne's second quarter reporting, and first full quarter reporting, as a financial holding company following the Company's completion of its acquisition of National Bank of New York City ("NBNYC") (renamed Newtek Bank, N.A.) and the withdrawal of its BDC election, on January 6, 2023. NewtekOne now consolidates the results of its former portfolio companies (now subsidiaries) and no longer uses investment company accounting. As a result, some prior-period comparisons on both a sequential and year-over-year basis are difficult. When analyzing NewtekOne, we believe it is important to consider the Company's time-tested differentiated business model which can provide multiple streams of income from its various businesses, as well as its operating structure which does not use brokers or business development officers to source loan originations.

NewtekOne Second Quarter 2023 Financial Highlights

- Net income was \$6.9 million, or \$0.26 per basic common share, for the three months ended June 30, 2023, which met the Company's previously issued forecast.

Barry Sloane, President, Chairman and CEO commented, "We couldn't be more thrilled to report such a successful first six months of our transition to a financial holding company, owning Newtek Bank, a nationally chartered technologically enabled bank. It is important to note, that we view ourselves as distinct from our peers in the bank holding company space as we position NewtekOne as the One Company for all of Your Business Needs®, the one company that can make you more successful, and the one company that provides independent business owners with business and financial solutions, all in addition to offering depository services to its clients. We pride ourselves on the level of our 24/7/365 customer service, the ability to offer our clients access to multiple experienced professional service providers through the Newtek Advantage®, and to receive state-of-the-art business and financial solutions that are not readily available at typical financial and business solutions companies. We are extremely excited about the beginning of our journey as a financial holding company and building on our over 20-year history of being able to deliver business and financial solutions to our client base of independent business owners, as well are providing returns to our shareholders. Furthermore, we are very pleased to be able to deliver results for the first and second quarters of 2023 that meet or exceed previously forecasted metrics from the management team. We are maintaining our 2023 earnings guidance of a \$1.70 to \$2.00 earnings per share, and anticipate our results for the second half of 2023 to exceed our results of the first six months of 2023; a trend that we have historically experienced."

¹ Non-GAAP, reconciliations of non-GAAP financial measures to the most comparable GAAP measures are set forth on the last page of the financial information accompanying this press release.

Discussing Newtek Bank, Mr. Sloane said, "Newtek Bank has been able to achieve very strong metrics through the first six months of 2023, that we believe sets it apart in the banking sector, as well as can help foster the investment community's understanding that Newtek Bank is unique and has been established to be a disruptor as a technology-oriented organization that serves its business clientele without the use of brokers and business development officers. In fact, Newtek Bank achieved what we believe to be above-average industry returns for the second quarter of 2023 with ROAA of approximately 4.9%, ROTCE of approximately 32.1%, and an efficiency ratio of 58.7%. Additionally, Newtek Bank grew its deposits from \$140.0 million at December 31, 2022 to \$447.4 million at June 30, 2023, and we feel very comfortable that we will be able to continue to maintain this level of deposits to finance our business lending platform, and if needed, grow the deposit base from levels at end of the second quarter. We also increased our deposit base by 4,500 client accounts through our digital-account-opening initiatives through the first six months of this year, of which the vast majority were opened between March 2023 and June 2023. We believe we will be able to further grow our deposit account openings, albeit at a slower pace going forward, as we have an ample amount of liquidity on hand to fund our lending business and balance sheet growth throughout 2023. Specifically, we currently have in excess of \$250 million invested at the Federal Reserve as well as ample capital at Newtek Bank, both of which are earning a diminished spread and represent a potential drag on our earnings ability. However, we plan on deploying this capital in the future, which we believe will enable us to further grow our earnings per share."

Mr. Sloane further commented, "In the second quarter, we accomplished another important milestone when we shifted our lending operation from NSBF, our legacy non-bank SBA lender, into Newtek Bank. Newtek Bank was granted PLP status by the SBA, enabling it to originate SBA 7(a) loans under PLP-delegated authority without having to go to the SBA for approvals. When combining Newtek Bank and NSBF, we ranked as the second largest SBA 7(a) lender based on dollar volume of loans approved as of June 30, 2023, according to the SBA, through the first nine months of the SBA's fiscal year, which ends September 30, 2023. In addition to SBA 7(a) loans and SBA 504 loans, we have started funding conforming commercial and industrial business loans and non-owner-occupied conforming investor-owned commercial real estate loans. Newtek Bank aims to have a portfolio of these loans to a diversified borrower pool across all 50 states."

Mr. Sloane continued, "Our subsidiaries Newtek Merchant Solutions, Newtek Technology Solutions, Newtek Insurance Agency and Newtek Payroll Solutions all contributed cash flow and earnings to NewtekOne during the second quarter 2023, and we have tremendous growth aspirations for our non-bank subsidiaries. We also continued to build out our senior management team, announcing the key hires of M. Scott Price as Chief Financial Officer of NewtekOne and Newtek Bank, and Burt Chandler as Director of Operations for Newtek Bank, among other executives. Finally, the investment community has assigned bank research coverage from Keefe, Bruyette & Woods, B. Riley Securities, and Ladenburg Thalmann, which along with Piper Sandler, results in four analysts in the banking space currently covering NewtekOne as a technology-enabled financial holding company."

Mr. Sloane concluded, "When analyzing the quarterly results from NewtekOne and Newtek Bank, we believe that it is critical to understand that we were able to achieve strong second quarter 2023 results during an overall difficult operating market environment as well as operational challenges that came with our very recent change in structure. We believe the market environment will improve and operational challenges will diminish over the next several quarters and years, which we believe will result in further growth. Specifically, the following factors detail some of what we have encountered and persevered through during the first six months of 2023, including but not limited to the repositioning of a 59-year old bank for future deposit and loan growth, having underutilized capital and liquidity at Newtek Bank to reduce risk due to current market conditions, staff and policy and procedure changes as a result of shifting loan fundings from NSBF to Newtek Bank, new hires at executive levels in the C-suite over the past 12 months, the full build out of digital account opening and online banking, repositioning of Newtek Bank's manual deposit gathering and adaptation to new loan offerings, and capital markets headwinds affecting most financial institutions. Our strong results in the face of what we view as a challenging environment is a true testament to our fortitude, acumen and adaptability that has served us well throughout our entire operating history and we believe will continue to do as we continue to build and grow NewtekOne and Newtek Bank. That said, we are extremely pleased with the shape and direction our new structure is taking, and believe the best is yet to come. We look forward to providing more detail on the quarter and our growth initiatives during our earnings conference call tomorrow morning, which we welcome you all to attend."
