

Newtek Business Services Corp. Reports Record SBA 7(a) Loan Fundings of \$223.1 Million for the Third Quarter 2022

October 3, 2022

BOCA RATON, Fla., Oct. 03, 2022 (GLOBE NEWSWIRE) -- [Newtek Business Services Corp.](#), (NASDAQ: NEWT), an internally managed business development company ("BDC"), announced today that Newtek Small Business Finance, LLC ("NSBF") had record fundings of SBA 7(a) loans for the three and nine months ended September 30, 2022. For the three months ended September 30, 2022, NSBF funded a record \$223.1 million in SBA 7(a) loans, which represents a 36.1% increase over \$163.9 million of SBA 7(a) loan fundings for the three months ended September 30, 2021. NSBF also funded 355 loans, a record for the three months ended September 30, 2022, compared to 219 loans for the same period last year. For the nine months ended September 30, 2022, NSBF funded a record \$587.0 million of SBA 7(a) loans, which represents an 61.9% increase over \$362.6 million of SBA 7(a) loan fundings for the nine months ended September 30, 2021. NSBF forecasts funding approximately \$750 million of SBA 7(a) loans for the full year 2022, which would represent a 33.8% increase over \$560.6 million of SBA 7(a) loans funded in 2021. The Company also announced that for the three months ended September 30, 2022, the weighted-average net premium received on the sale of guaranteed portions of SBA 7(a) loans slightly increased in the third quarter 2022 over the second quarter 2022.

Barry Sloane, CEO, President and Chairman commented, "We are extremely pleased that our people, process, and software that are at the heart and soul of Newtek's technology driven operations continue to provide outstretched results. After receiving approximately 77,000 referrals for the third quarter 2022, we created our funnel of prequalified, underwritten and approved-pending-closing categories of loans to achieve record-setting SBA 7(a) loan fundings for the three and nine months ended September 30, 2022, without sacrificing credit quality, but actually increasing selectivity as we believe the economy will transition into even more challenging economic times. In fact, our total fundings through the nine months ended September 30, 2022 of \$587.0 million exceeded total fundings for all of 2021, and we are currently on track to meet or even exceed our full year 2022 SBA 7(a) funding forecast of \$750 million."

Mr. Sloane continued, "Our average loan sizes continue to decrease, which provide greater credit diversification. We are now moving into our 20th year of small business lending and over our history, we have experienced higher interest rate environments as well as weaker-credit environments, and we pride ourselves on the fact that our seasoned management team and staff have the experience to make the right adjustments while continuing to grow our business opportunities."

Mr. Sloane concluded, "We look forward to our upcoming third quarter 2022 earnings conference call, when we plan to report our successes across all business verticals as well as provide detail on the progress that we are making in our non-conforming conventional lending business as well as the SBA 504 lending environment. Our payment solutions, technology solutions, as well as our insurance agency and payroll businesses are all tracking upwards and gaining momentum based on our model of being the One Solution for All of the Business Needs[®] for independent business owners."
