Item 8.01. Other Events

Newtek Technology Solutions, Inc. (“NTS”), a wholly-owned portfolio company of Newtek Business Services Corp. (“Newtek” or the “Company”), has experienced a cybersecurity incident. Specifically, NTS has become aware that an unauthorized third party misappropriated three domain names, which NTS uses to support customer management of hosted websites. NTS has notified its shared webhosting customers of the incident, and has assisted in re-routing web traffic to minimize any service disruptions to its clients.

NTS’ management has launched an investigation into the incident. Based on the investigation to date, NTS’ management believes that attackers compromised a portion of its shared webhosting system, and may have acquired certain customer information limited to its shared webhosting customers, and/or gained access to certain of its shared webhosting servers. While the investigation remains ongoing, NTS has taken a range of steps designed to secure its system, enhance its security protections, enhance access controls, and prevent future unauthorized activity. NTS also is working with forensic investigators to fully assess the incident and take additional remedial measures.

As a result of the incident, the Company reduced the fair value of its investment in NTS, a wholly-owned portfolio company, from \$16.0 million as of September 30, 2017, to \$12.4 million at December 31, 2017 (approximately 4.46% of the Company’s \$278.3 million of net assets as of December 31, 2017, as previously disclosed on March 5, 2018).
