Majority Of Business Owners Not EMV Ready

NEW YORK, March 5, 2015 /PRNewswire/ -- Newtek Business Services Corp., (NASDAQ: NEWT) (www.thesba.com) The Small Business Authority, with a portfolio of over 100,000 business accounts, announced today the findings of its SB Authority Market Sentiment Survey, a monthly window into the concerns of independent business owners. Based on a poll of over 990 respondents, the key finding from the February survey is 71% of business owners were not aware that by October of 2015, Visa and MasterCard will hold the merchant responsible for credit card fraud if they do not have a Europay, MasterCard and Visa ("EMV") compliant terminal. Additionally, 81% of business owners have not yet upgraded their POS or terminal to be EMV ready and to accept Apple Pay.

The full February 2015 results showed the following:

Poll Question	Poll Answer	Percentage
Are you aware that by October of 2015, Visa and MasterCard will hold the merchant responsible for credit	Yes	29%
card fraud if they do not have an EMV compliant terminal?	No	71%
Have you upgraded your POS or terminal to be EMV ready AND to accept Apple Pay?	Yes	19%
	No	81%

Barry Sloane, Chairman, President and CEO of *The Small Business Authority* commented, "With approximately 6 months to go, it is still apparent that business owners still do not have a full understanding of the importance and issues surrounding the EMV strategy to accept chip card processing. In October of 2015, the risk associated with these payments will shift to the merchant and it is extremely important for individuals taking credit card payments to be aware of EMV, a global standard for credit and debit payment cards based on chip card. We believe our data is skewed with a slight negative bias, however as we go through our own database of customers, they are slowly moving over to EMV compliant merchant accepting platforms."
