FOR IMMEDIATE RELEASE

**Newtek Announces Shareholder
Approval of Conversion to Business Development
Company ("BDC") and Reverse Stock Split**

Multiple Special Meeting Proposals Approved By Over 90% of Voting Shareholders

NEW YORK – October 22, 2014 – Newtek Business Services, Inc. NASDAQ: NEWT, *The Small Business Authority*[®], announced today the results of the voting by its shareholders at its Special Meeting of Shareholders, which convened earlier in the day. At the Special Meeting, shareholders gave their approval to proceed with the Company's conversion to a business development company ("BDC") and the related corporate steps by all the required voting majorities. In addition, the shareholders also approved, by an overwhelming majority, the proposed reverse split of the Company's shares. All of the proposals put to the shareholders at the Special Meeting were approved by the required voting majority percentages, and were also approved by over 90% of those shareholders who voted. Following the meeting, the Board of Directors met and approved a reverse split ratio of one new share for each five (1:5) of the Company's current common shares. The reverse split will be effective as of the close of business today, October 22, 2014.

Barry Sloane, Chairman, President and Chief Executive Officer said, “We are extremely pleased that our shareholders recognized the value of the strategy to pursue the conversion from our historic structure as an operating company to a BDC. As of today, our stock has undergone a 1 for 5 reverse split which, because of the increased share price, we believe will enable us to attract a much broader universe of investors to our stock, eliminating the price-threshold barrier that precludes many institutional investors from purchasing a stock trading below \$5.00 per share.”

Mr. Sloane concluded, “We appreciate the overwhelming support of our shareholders in the restructuring of our Company to improve our ability to continue to grow the business and its profitability. The votes we received today approving our plans to convert to a BDC, the reverse stock split and other proposals are exciting developments for our future.”
