share. Our loan servicing portfolio now exceeds \$1.0 billion for the first time in the Company's history. In addition, we are pleased to announce the signing of a commitment letter with Goldman Sachs Bank USA for a \$75 million financing facility, which facilitates our achievement of our lending growth objectives for this year and next. Finally, key additions to staff in both production and compliance areas should enable us to continue to grow and effectively manage risk allowing for an uninterrupted flow of business going forward."

Mr. Sloane continued, "Despite a challenging third quarter, we are proud of our overall performance thus far in 2013. We look forward to reaccelerating stronger growth in our business services segments which we have been able to do on a historical basis. We are well positioned to deliver strong year-over-year growth comparisons in the fourth quarter, which will allow us to achieve our previously stated goals and meet market expectations. We fully anticipate attaining a 20% growth in diluted earnings per share."

"With many of our product strategies, in particular with our Cloud computing and our EMV (Europay, MasterCard and Visa) strategies, we are in an exceptional position to capitalize on the rapid changes occurring in the markets in which we operate. This strategic direction, coupled with our position as 'The Authority' on technological and financial product offerings and solutions for small- to medium-sized businesses, provides an excellent opportunity for Newtek and its shareholders," concluded Mr. Sloane.

Cautionary Statement

2013 and 2014 Guidance information contained in this press release is based on management's current expectations. These statements are forward looking and actual results may differ materially. See "Note Regarding Forward-Looking Statements" below.

Use of Non-GAAP Financial Measures

In evaluating its business, Newtek considers and uses Adjusted EBITDA as a supplemental measure of its operating performance. The Company defines Adjusted EBITDA as earnings before income from tax credits, interest expense, taxes, depreciation and amortization, stock compensation expense, other than temporary decline in value of investments, Capco fair value change and the amortization of the 2011 accrued loss on the lease restructure. The Company also presents Adjusted EBITDA because it believes it is frequently used by securities analysts, investors and other interested parties as a measure of financial performance.

The term Adjusted EBITDA is not defined under U.S. generally accepted accounting principles, or U.S. GAAP, and is not a measure of operating income (loss), operating performance or liquidity presented in accordance with U.S. GAAP. Adjusted EBITDA has limitations as an analytical tool and, when assessing the Company's operating performance, investors should not consider Adjusted EBITDA in isolation, or as a substitute for net income (loss) or other consolidated income statement data prepared in accordance with U.S. GAAP. Among other things, Adjusted EBITDA does not reflect the Company's actual cash expenditures. Other companies may calculate similar measures differently than Newtek, limiting their usefulness as comparative tools. The Company compensates for these limitations by relying primarily on its GAAP results supplemented by Adjusted EBITDA.
