Newtek To Ring NASDAQ Opening Bell And Launch "The Newtek Advantage" Cloud-Based Operating Platform For Small Business

NEW YORK, Nov. 12, 2012 /PRNewswire/ -- Newtek Business Services, Inc., NASDAQ: NEWT, [The Small Business Authority](#)®, announced today that in addition to formally launching its revolutionary, state-of-the-art "[Newtek Advantage](#)" cloud-based operating platform, it will be ringing the NASDAQ Opening Bell on November 14, 2012. A live broadcast of the bell ringing can be accessed at <http://www.nasdaq.com/marketsite/webcam.html> and can be seen live on CNBC at 9:30 am EST. The launch of the "[Newtek Advantage](#)" will follow at 12pm EST by [invitation only](#); clients and media are welcome to register by emailing hrazon@thesba.com.

The [Newtek Advantage](#) is a mobile real-time SMB management platform, not just a mobile application or "app." It puts all critical transactions of a small-to-medium-sized business, as well as economic, ecommerce and web site traffic data on the business's smartphone, tablet, laptop or PC. [Newtek's](#) unique market position, of being a large [web hosting company](#), [payment processor](#), [gateway provider](#), [web designer and web services company](#), enables it to aggregate and drive vital real-time business intelligence information to a business owner's smart phone or tablet. The [Newtek Advantage](#) provides the actionable intelligence that businesses and technicians will require and utilize in the future of mobile eCommerce and will give them the advantage to succeed in this new environment. This revolutionary platform will allow owners and operators of small- and medium-sized businesses to manage their businesses from their mobile device anywhere, anytime and without an IT department.

Tobin Smith, founder of [NBT Equities Research](#), an expert in cloud computing equities and editor-in-chief of [CloudInvestor.com](#), will be speaking at the press conference to discuss the importance of cloud computing and the mobile [Newtek Advantage](#) platform. This will be the first in a series of business applications that [Newtek](#) will be introducing to the market. One can view the features of the mobile application by [clicking on this link](#).

Smith commented, "The mobile data revolution means nothing to a small-business manager unless they can get what they need whenever and wherever they are. What is revolutionary about the new [Newtek Advantage](#) is that it is a mobile SMB management platform, not just an app. [The Newtek Advantage](#) puts the key management and decision-making data on a smartphone, tablet or laptop in real time. Best of all, this platform function is free to [Newtek](#) clients."

The [Newtek Advantage](#) is SMART:

- | **S:** Sales Increased — less time dealing with administrative matters means more time selling and servicing customers.
- | **M:** More Control, Less Surprises — key business stats and metrics are available in real time; small businesses can make more informed decisions faster and never be out of touch with the most important business data.
- | **A:** Accelerated Profits — real-time information means better and more profitable decisions.
- | **R:** Real-time information means key business management data is only seconds away, whenever and wherever the business operator is.
- | **T:** Technology Enhancements — leads to decreased cost and expense of an IT department — everything is in the Cloud."

President and CEO, Barry Sloane said, "We believe that mobile applications hosted in the Cloud will continue to proliferate and become the standard for independent business owners. [Newtek - "The Small Business Authority](#)®" is excited to launch its first in a series of cloud-based platforms and applications for independent small businesses across the United States. All of the applications will perform on the [Newtek Advantage](#) platform. We have spent years developing this platform internally and have recently filed a patent application with the US Patent office on this revolutionary state-of-the-art business system."

[Newtek Business Services](#) processes electronic payments in excess of \$4 billion annually. Newtek has over 100,000 domain names registered and currently hosts over 58,000 business sites in its secure, military-strength proof, level-4 data center. [Newtek](#) will be launching future applications generated from The [Newtek Advantage](#) platform within the next two quarters featuring "[Payroll in the Cloud](#)" and "[Insurance in the Cloud](#)".
